

Introducing the "SafeLift™ Platform"

The new the SafeLift™ Platform reinvents the Crossfit weightlifting Platform. The SafeLift™ Platform is 3/4" thick with sloped edges and it protects your floors from damage while providing access to athletes and guests. Available in three colors.

The SafePath™ Products Corporation (www.SafePathProducts.com/Product/SafeLift-Platform) has announced they have reinvented the Crossfit weightlifting Platform and is the first to comply with ADA regulations. More durable than other models, The new SafeLift™ Platform is the first Crossfit weightlifting Platform that comes with beveled, sloping edges that meet ADA compliance regulations and is available in three color options. The SafeLift™ Platform defines your workout area for using free weights, protects your floor and provides access to everyone, which greatly improves safety.

"The SafeLift™ Platform is going to change the way gym owners think about

protecting their investment and providing access for everyone," explained Tim Vander Heiden, CEO of SafePath™ Products. Gym owners are starting to realize how important ADA compliance is and the demand for ADA compliant Lift Platforms are on the rise."
